## Cheerful

Our gourmet kitchen is cheerful with its whimsical backsplash, its 48" professional quality burgundy stove, and its high-end walnut island countertop. It has a lovely view into the back garden.

## Family Friendly

It's a family house. We have a swing set and a fort in the backyard. Upstairs we have two teenage bedrooms. One bedroom has red walls and the other has a 3D border that progresses from a military scene to a space scene. It's unique and was handmade by his artistic aunt.

## Inviting

We've lived in our house for more than 20 years and my husband's love for gardening shows. There's green grass, lots of flowers, fruit trees, a vegetable garden, trellises, a meditation garden with a fountain, and a redwood deck with a hot tub.

## Welcome

Greetings my name is [REDACTED]. I've done some background work in movies and commercials. I enjoy the excitement and creativity of being on a set so much that I thought, why not turn our house into a set? Please go to [REDACTED] to see many more pictures.

## Cozy

Our front parlor gives the impression of stepping back in time with it's antique furniture, brick fireplace, built in bookcases and dark colored walls.

## Impression

It's a traditional home with a varied style. Inside you'll find barn doors and a red dial wall phone. There's both a mix of antiques and new furniture. Together the feel is a warm, inviting, comfortable family home.
