

Annual Diversity Data

Approved projects in the Film and TV Tax Credit Program and the Soundstage Filming Tax Credit Program are required to submit ethnicity and gender statistics of all individuals that received qualified wages and all individuals that received non-qualified wages. The information below includes only those projects which have completed production and submitted their final documentation and does not necessarily represent the diversity of the projects in the tax credit programs or the motion picture industry in California. The data does not contain statistics from individuals that declined to provide voluntarily **self-reported diversity information**. It is statutorily required to be posted by the California Film Commission on an annual basis.
